

Rexnord Tollok Solutions for Wind Industry Applications

Rexnord Tollok delivers exactly what you need,
when you need it.

We are with you every step of the way.

For more than 40 years, Tollok products have led the industry in locking assemblies. Our robust product offering features a wide range of options from simple and compact designs to advanced features.

Rexnord Tollok locking assemblies can be customized to fit our customers' ever-changing application needs and are ideal for use in heavy-duty and specially engineered environments.

Our product line is complemented with industry leading service. Regardless of the location, our customers can rely on our experienced application engineers for technical support.

With sales and service operations at locations worldwide, and a vast network of distributor relationships, we deliver exactly what you need, when you need it.

Engineered Solutions for Wind Turbines

Rexnord Tollok is a leading manufacturer of locking assemblies that perform under the most rigorous demands in your wind energy applications. We design our products by using state-of-the-art analysis tools to ensure the most accurate designs possible.

Our product line is complemented with industry leading service. This combined with the latest manufacturing methodology ensures us to manufacture shrink discs for eight Mega Watt (MW) wind-turbines.

Rexnord Tollok Shrink Disc — Quality design from the start

Rexnord Tollok utilizes the latest manufacturing methodology ensuring high precision products. Our metrology department monitors accurate testing during production. All products produced by Rexnord Tollok are subject to a strict quality control to guarantee the highest level of quality products.

Contact Rexnord today to learn about our engineered solutions that can help you increase uptime, productivity and profit.

Why Choose Rexnord?

When it comes to providing highly engineered products that improve productivity and efficiency for industrial applications worldwide, Rexnord is the most reliable in the industry. Commitment to customer satisfaction and superior value extend across every business function.

Delivering Lowest Total Cost of Ownership

The highest quality products are designed to help prevent equipment downtime and increase productivity and dependable operation.

Valuable Expertise

An extensive product offering is accompanied by global sales specialists, customer service and maintenance support teams, available anytime.

Solutions to Enhance Ease of Doing Business

Commitment to operational excellence ensures the right products at the right place at the right time.

REXNORD

Rexnord Company Overview

Rexnord is a growth-oriented, multi-platform industrial company with leading market shares and highly trusted brands that serve a diverse array of global end markets.

Process & Motion Control

The Rexnord Process & Motion Control platform designs, manufactures, markets and services specified, highly engineered mechanical components used within complex systems where our customers' reliability requirements and the cost of failure or downtime are extremely high.

Water Management

The Rexnord Water Management platform designs, procures, manufactures and markets products that provide and enhance water quality, safety, flow control and conservation.
